Arger-Martucci Dulcenea

California - Napa

Dulcenea

The History

At Arger-Martucci Vineyards, we take great pride in our Estate-Bottled wines. Each of the Cabernet varietals is grown on the Arger Family Odyssey Vineyard property. Sitting atop Atlas Peak, the gentle hillside vineyard is situated 1,350 feet above the Napa Valley floor and enjoys a perfect climate for growing grapes. Between 1,000 and 2,000 feet is considered “the sweet spot” for growing hillside grapes, and we believe our vineyards take full advantage of the additional morning sun exposure and cool nights afforded by this location

The Vineyard

We call this Odyssey Vineyard because it has led us on a true “odyssey” from intense fascination to “garagista” and finally to commercial winery with the goal of producing limited amounts of premium wine. This vineyard produces our Odyssey proprietary blend of Cabernet Sauvignon, Cabernet Franc, Merlot, and Petite Verdot. In addition, our Syrah is produced from a small, 3-acre rocky parcel located adjacent to this Cabernet vineyard and from a 3-acre parcel owned by the Martucci’s, which is also located on Atlas Peak. We find that blending the fruit from these two vineyards gives our Syrah its richness and complexity for which it is known

Tasting Notes

This wine is an incredibly rich, sauternes-style dessert wine. The bouquet gives immediate apricots and peaches that follow through on the palate. The texture is rich, but not cloying on the palate. The complexity of flavors is quite remarkable--peaches, a touch of tropical, and a hint of nutmeg. Only six barrels were produced
