

Casa Marguery

Casa Marguery Malbec

Argentina

100% Malbec

The History

Familia Marguery is solely committed to the production of high quality wines with the latest technological advances and in limited stocks. Our wines are produced with selected grapes from old vineyards in Tupungato, La Consulta and Vistalba, Mendoza, Argentina. We seek to express a lifestyle, inherited from our ancestors, with a focus on responsibility and a passion for our work. Familia Marguery produces its wines in Cruz de Piedra, Maipú. With a capacity of 160,000 litres, the winery is equipped with stainless steel tanks and temperature controls, machine press, conveyor belt for selecting the grapes and latest generation of pumps

The Vineyard

Familia Malbec is Guillermo's specialty, with 100% of the fruit coming from his vineyard in La Consulta. To us, Familia Malbec almost comes across as "old world", and we really enjoy the wine's minerality. The wine is very much sought after inside Argentina, and we are only able to import 300 cases per year.

Tasting Notes

Deep red color with intense violet tones. The nose is complex, with notes of red fruits like plums and morillo cherries, a touch of black pepper and cassis. On the palate it is concentrated yet round, with sweet tannins. Pure Malbec through and through
