## 2006 Crush Proprietary Red

80% Dry Creek Valley Cabernet Sauvignon, 20% Dry Creek Valley Merlot

Bursting with aromas of blackberry jam and spice. Flavors of cedar and blackcurrant with hints of licorice. This wine is full-bodied with soft tannins and a long, spicy finish.

Crush Winery is committed to producing wine that is indicative of the unique growing conditions in the Dry Creek Valley. Our Wines are characterized by complex aromas, rich fruit and soft tannins in balance with good acidity and an elegant finish.

A wine for all occasions whether with food or on its own. Enjoy.

Dry Creek Valley is the ideal climate for growing Cabernet and Merlot. Cool fog from the Coast keeps acidity high and fruit flavors bright. Mid-day sun blows off the fog and ripens the grapes for richness and density.

Our Vineyard manager picks at the optimum point when ripeness strikes a perfect balance with acidity and maturity of flavors.
