### HISTORY

The Pillitteri vineyards were established in the Niagara region in 1948.

Pillitteri Estates Winery proudly continues a family tradition of viticulture and winemaking excellence.

For Gary Pillitteri, the opening of Pillitteri Estates Winery in June of 1993 was the culmination of a lifetime dream.

The family's **53 acres** of vineyards, planted with **vitis vinifera** and **French Hybrid grape** varieties. Following the exacting standards of the VQA (Vintner's Quality Alliance) production has increased steadily since the winery's opening, and currently stands at **250,000 liters**. The winery's production facilities have recently undergone a major expansion, although growth in production is carefully controlled to ensure that the family's high quality standards are maintained.
