Moillard

Moillard Crozes-Hermitage

France - Rhone

Syrah

The History

In 1846, the Wine Tasting Board of Lyons, in comparing the Hermitage wine with its neighbour Crozes-Hermitage, declared : “if they are not brothers, they are cousins”.

The Vineyard

The Crozes-Hermitage vineyards, east of Tain-l'Hermitage, are located on a plateau overlooking the confluence of the Rhône and Isère. They are situated in the northern area of the Côtes du Rhône, between Vienne and Montélimar.

The Wine

From 1200 hectares (3000 acres), the yearly yield is about 6 million bottles.

Serve slightly below room temperature.

Tasting Notes

100% Syrah. Planted with Syrah grapes, this vineyard produces typical wines of character : strong, with body and rich in aromas. Wine lovers will immediately recognise this wine because of its deep, complex bouquet similar to the aromas in a herbalist's shop.

Food Pairing

These wines are perfect with meat or cheese. They can even be served with exotic food or very spicy dishes, something which is unusual for red wines.
