The Vineyard

5.5 hectares of vines situated around the original St. Joseph villages of Mauves, Tournon and St. Jean de Muzols. The individual parcels range in altitude, the highest at 308m, and soil composition, but all with varying percentages of poor, crumbly to sandy granitic base

Tasting Notes

On the nose, a savory bouquet of game, red and black fruits, licorice and an intense backbone of iron minerality which surely originates from the heavily granitic soils upon which the vines rest. Wonderful concentration of fruit, structure and ripe tannin all together foretell a long storied life ahead.
