DOMAINE DES BROSSES

FRANCE

SANCERRE

The History

Le Domaine des Brosses, situated on the hillsides of Sancerre, dates back to 1875.

The property extends over 11 hectares of Sancerre, of which 9 are planted with Sauvignon and 2 with Pinot Noir, on clay limestone soils called "terres blanches" and "caillottes". The limestone bedrock is typical of the appellation.

Each year we produce 70 000 bottles of wine, using traditional and environmentally friendly growing methods.

The Grape

100 % Sauvignon Blanc

Tasting Note

Bright and pale golden. A fresh, citrus palate has herba-
ceous notes of hay and nettle. Richly textured but
with crisp acidity and textbook minerality. The finish is
elegant with typical purity and refreshment of excellent
Sancerre.
