CHARDONNAY

The History

The hills of Maçon form a group separated by parallel faults and are either North / North East or South / South West facing slopes. They extend over 40 km to the west inline with Tournus to Mâçon. Thanks to the powerful abbeys of Cluny and Tournus the vineyards have been established here since Gallo-Roman times.

Soil Type: Siliceous clay or sandy, often mixed with "chert" or sandstone pebbles, promotes a premature Chardonnay.

The Grape

100 % Chardonnay

Tasting Note

White golden in color with silver hues. A fresh and expressive bouquet with white flowers, citrus fruits and peach notes. A frank palate which presents a pleasant saline finish. The whole offers a tasty wine with a nice freshness.
