CIMA COLLINA

SANTA LUCIA HIGHLANDS—TONDRE GRAPEFIELD

CALIFORNIA

PINOT NOIR

### The History

The Tondre Grapefield is planted in the southern reaches of the Santa Lucia Highlands on a river bench with glacial soils that range from sandy loam to decomposed granite. The area receives sunshine during the day but is cooled in the afternoon by ocean breezes that sweep through the Salinas Valley from Monterey Bay. All of these characteristics make this one of the country's premier regions for Pinot Noir.

### The Grape

100 % Pinot Noir

### Tasting Note

Very aromatic. Cherries, spices, rose petals. Silky tannins. Notable weight and texture.
