

California

Madrona Zinfandel Signature

El Dorado

Zinfandel

The History

The Madrona wine all started by a pioneer who found an exceptional landscape that is divestible to the hillside vineyard, which was located in El Dorado, California in 1973. It was originally founded by the Senior Bush who wanted to create this unique wine that has great acidity with perfect balance to create this comfort when drinking the wine. This authentic wine was discovered from a 350 year old Madrona tree, which represented the location to grow the best terroir of the Madrona vineyards. These Madrona trees are found in the greatest growing regions through El Dorado, Sierra Foothills AVAs.

The Grape

100% Zinfandel

Tasting

Our supple and full-bodied Zinfandel consistently displays intense raspberry, black pepper, and spice aromas along with flavors which make it classic El Dorado Zinfandel. Warm days and cool nights allow our grapes to slowly reach optimum maturity while maintaining excellent natural acidity. This, combined with minimal irrigation, results in a balanced wine rich with varietal character.
