MAXIA

Baja California

Red Blend 2023

The History

Nestled in the Barisal Vineyard of Valle de Ojos Negros, Baja California, MAXIA benefits from an exceptional terroir where mineral-rich quartz soils, Mediterranean climate, warm sunny days, and cool Pacific evenings produce grapes of remarkable freshness, elegance, and balance. This unique environment allows the wines to preserve vibrant acidity while developing remarkable aromatic complexity.

THE GRAPE

50% Cabernet Sauvignon | 10% Tempranillo | 40% Grenache

TASTING NOTE

Deep ruby with garnet reflections and exceptional brilliance. Dense and vibrant in the glass, displaying excellent color concentration and youthful intensity. The bouquet is rich, expressive, and beautifully layered. Aromas of ripe blackberry, raspberry, and plum are complemented by elegant notes of sweet baking spices, cardamom, cocoa, vanilla, and subtle toasted oak. As the wine opens, delicate hints of dark chocolate and Mediterranean herbs add further complexity. MAXIA Red Blend 2023 is a beautifully crafted, contemporary expression of Baja California. This harmonious blend offers outstanding balance between fruit, oak, acidity, and finely textured tannins. The 12 months of French oak aging enhance complexity while preserving the wine's vibrant fruit character, resulting in a refined, gastronomic red with exceptional elegance and aging potential.
